Obsessed Computer Architect with an expansive repertoire of micro-processor knowledge from M68K, MIPS, PPC, ARM with 2+ years of experience leveraging low level languages to achieve my goals. Plagued with the perpetuating urge to tinker, improvise, intricately problem solve and build state-of-the-art hardware infrastructures and software.

## WORK EXPERIENCE

---

### Content Coach - Freelance Video Editor, May 2020 – June 2023

- Started as a contractor through company.
- Became a quintessential aspect of the video creation pipeline; involving myself in the high-octane, vibrant editing style for videos pertaining to video games and cartoons.
- Edited over 100+ videos accumulating over 200+ Million Views spanning all 4 channels.

## EDUCATION

---

**Aston University** - Birmingham, England

**BSc (Hons) Computer Science - September 2023 - Present**
